

# LT Series Structural Fire Helmet

**Lightweight.  
Heavy Duty.**

LT Series fire helmets are designed Bullard Tough™ for extreme conditions. The tough shell, lightweight and compact design have been re-engineered to offer even more headroom and comfort – making it the most comfortable low profile helmet on the market.

## Tough and Durable

The outer shell of the LT is made of the same high-heat Ultem® thermoplastic used in Bullard PX fire helmets and thermal imagers. This thermoplastic provides unparalleled impact and penetration resistance. The revolutionary patented nylon impact cap performs like a traditional impact cap, helping protect against falling objects and heat rise, while offering a sleek, easy to clean surface.

## NFPA Approved

The LT fire helmet exceeds the NFPA 1971 Standard on Protective Ensemble for Structural Fire Fighting 2007 Edition Pertaining to Structural Fire Helmets.

## Quick, Easy Sizing

The LT is designed for exceptional balance, comfort, stability and interface with respiratory equipment. The Bullard Sure-Lock® ratchet headband offers both a quick-turning sizing knob and a unique three-position height adjuster to create a completely personalized fit. The LT helmet is equipped standard with a leather ratchet cover.

## Eye Protection Made Easy

Bullard LT Series helmets come standard with the innovative Quick-Attach Blade™ system. This system permits the wearer to instantly press on or off either a blade-mounted faceshield or blade-mounted goggles. This flexibility gives the fire fighter the advantage of the right option for the right application without time consuming component changes. The LT comes with a faceshield or ESS goggles.

## Cost-Effective Maintenance

LT helmets are designed from the start to make maintenance easy and cost-effective. Fewer components and one of the lowest total costs of ownership in the industry will truly make your LT helmet a long-term investment. Plus, special mold-formed faceshields mean less stress cracking and longer lasting faceshields.

## Engineered for Comfort and Protection

The Bullard patented M-PACT Shell™ with SmartRidge™ design provides thermal and impact protection while allowing for more headroom on the insides of the compact outer shell.

## A Custom Fit

All Bullard fire helmets are equipped with the U-Fit System, offering 12 custom comfort settings. By engineering our helmets to include 12 points of adjustment, you can adjust the ride and balance of your helmet. It's like having a custom-fitted helmet, designed just for you.

# LT Fire Helmet

## Technical Specifications

Dimensions: 12 3/4" L x 10" W x 6 1/2" H  
 Outer Shell Material: Thermoplastic  
 Inner Shell Material: Nylon Impact Cap  
 Suspension: 4-point nylon crown strap  
 Warranty: Two years from date of manufacture, all components

### 1 GE Ultem thermoplastic outer shell

The durable heat-resistant thermoplastic shell has color pigment molded throughout and edge beading that will not melt, drip or ignite when tested to NFPA.

### 2 M-PACT™ Shell

Superior protection is provided by Bullard's patented M-PACT shell with SmartRidge design, providing increased protection while remaining lightweight.

### 3 Sure-Lock® ratchet headband

Sure-Lock is the top performing ratchet headband, made exclusively by Bullard. Comfort brow pad is removable and washable or replaceable.

### 4 Rip-stop Nomex ear/neck protector

Heat-resistant and backed with two layers of fire-resistant cotton flannel for comfort and protection. Nomex is a heat and flame resistant fabric made by DuPont. Provides premium protection in high heat situations.

### 5 Four-point crown strap assembly

Comfortable suspension system for extra protection against impact.

### 6 PPC 4" faceshield

Rugged, optically correct faceshield eliminates distortion and reduces eye stress and fatigue.

### 7 Nomex chinstrap

Chinstrap with quick release buckle is comfortable and fire resistant.

### 8 Quick-Attach Blade System

The easiest way to quickly change out face protection; offered exclusively by Bullard

### 9 Scotchlite reflective stripes

Highest quality reflective material available; retains reflectivity to 500° F (260° C). No burning, cracking or peeling.

### 10 Stainless steel D-ring

Large, durable D-ring allows you to hang your helmet on virtually any size hook.

### 11 Three position ratchet height adjuster

(not shown):  
 The height adjuster is the base of our 12-point comfort system. Adjust to ride high, low, or somewhere in the middle for a custom fit.

## LTX Deluxe Helmet System

- Black inner shell (R929)
- Sure-Lock® ratchet suspension (R624)
- Black rip-stop Nomex® ear/neck protector (R721)
- Quick-Release buckle chinstrap (R145)
- Removable fire-resistant cotton brow pad (R634)
- Quick-Release/postman slide chinstrap (R141)
- Edge beading
- Leather ratchet cover (R160)

## Options at no additional charge:

- R325 6" Faceshield
- Red-Orange Reflective Scotchlite Striping
- R721YLW Yellow Nomex Ear/Neck Protector

## LTG4X Deluxe Helmet System with Goggles

- Same as Model LTX, except with Quick-Attach ESS goggle in place of faceshield (I24)
